Archaeology is the study of past by looking at artifacts left by people who lived long ago. These remains can include old tools, coins and buildings.

FACTS ABOUT ARCHAEOLOGISTS

1. Although archaeologists might find fossils that's not the only thing they are looking for.

- 2.** The site an archiologist works on is called a dig.
- 3.** Archaeologists use tools such as shovels, brushes and trowels.
- 4.** Robert Ballard, Howard Carter and Paul Emile Botta are all famous archaeologists.

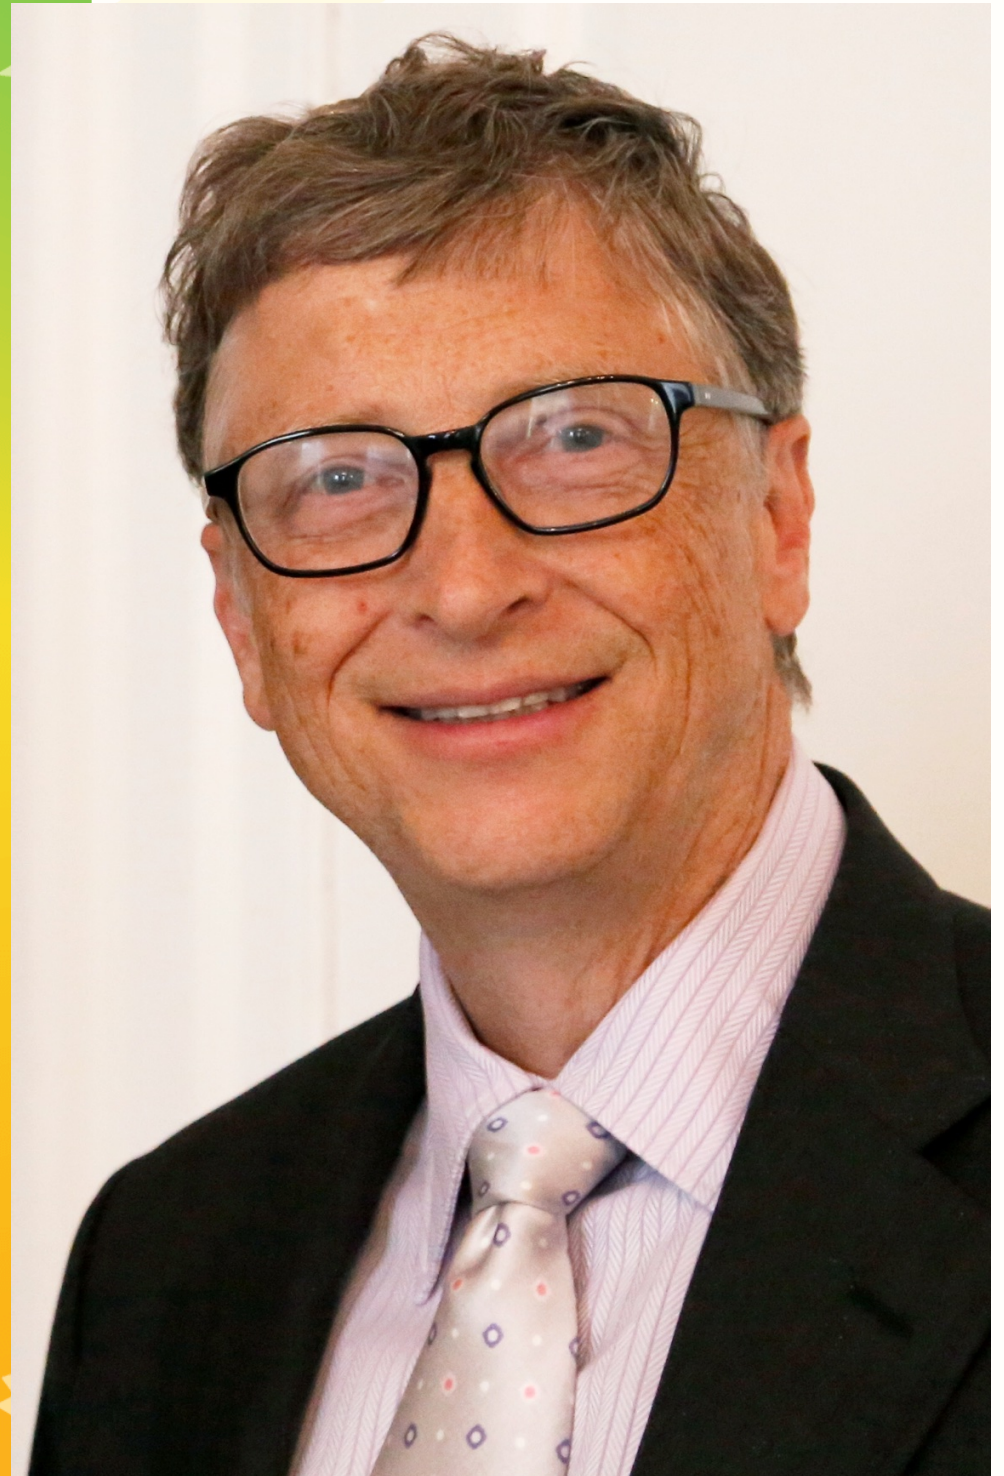

SOFTWARE ENGINEER

- 1.** A software engineer develops games or softwares for businesses and code them to work for kids to enjoy and businesses to work.
- 2.** A software engineer is a person who applies the principles of software engineering to the design, development, maintenance, testing and evaluation of computer software.

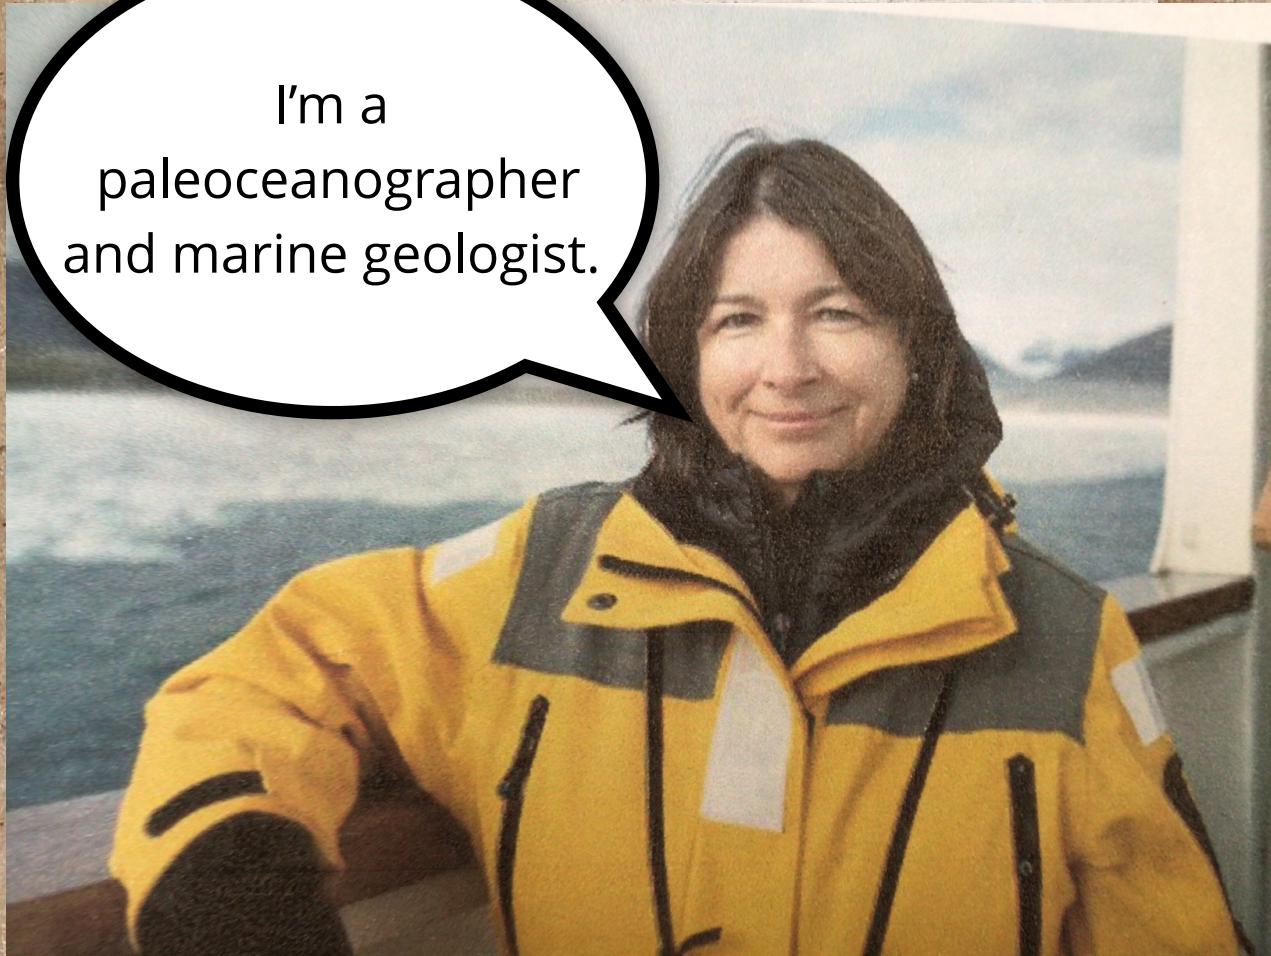

BILL GATES

3. Bill Gates is the owner of Microsoft and used to be the richest man in the world from 1995 to 2017. He is very kind and cares about the world's ecosystem, often giving huge donations to charities.

Maureen E. Raymo

I'm a
paleoceanographer
and marine geologist.

Maureen is a paleoceanographer and marine geologist who studies the history and causes of climate change in the Earth's past.

By the time Maureen was eight she wanted to be an oceanographer.

Maureen went to Brown University in 1982 and went to Columbia University in 1989.

FIDELMA FITZ PATRICK

A woman with short brown hair, wearing a white lab coat over a patterned top, is speaking. She is in a laboratory setting with a computer monitor and petri dishes visible in the background. A speech bubble points to her.

I'm a Clinical Microbiologist.

Fidelma Fitzpatrick is a Clinical Microbiologist and teaches other people how to be doctors too.

When Fidelma was 8 years old she wanted to become an astronomer but she decided to become a doctor instead because she wanted to make a change to people's lives.

She went to Trinity College and studied medicine and science.
